PROFESSIONAL SUMMARY

Graduating BS Information Technology student specializing in Mobile and Web Applications with hands-on internship experience in full-stack system development, IT support, networking, hardware troubleshooting, and server configuration. Developed operational systems for inventory, ticketing, virtual office management, and CRM workflows; experienced with React.js, Node.js, databases, RAID configuration, Windows Server installation, and Active Directory fundamentals.

TECHNICAL SKILLS

Web & Programming	React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Node.js, Flutter, Dart
Databases & Tools:	MySQL, XAMPP, Firebase, Supabase, Git, GitHub, VS Code, npm, Render
AI & APIs:	OpenAI API, Azure AI Services, REST API integration
IT Support & Infrastructure:	Network monitoring, IP addressing, router/switch/access point basics, RJ45 cabling, hardware troubleshooting, operating system configuration, RAID configuration, Windows Server installation, Active Directory setup

Internship Experience

IT Intern / System Developer | FiveTwenty IT Services / Launchpad Coworking | Muntinlupa City, Philippines | 2026

- Developed and improved internal systems for inventory tracking, ticketing support, virtual office client management, and CRM inquiry pipeline workflows.
- Served as lead developer for an Online Ticketing Support System that centralized client technical support requests through company-specific submission links and improved ticket monitoring.
- Built CRM workflow features for lead assignment, inquiry status tracking, proposal draft preparation, dashboard analytics, notifications, and calendar/booking planning.
- Supported virtual office operations through client record management, contract/renewal monitoring, receipt generation, PDF/image outputs, and verification fields.
- Performed IT support tasks including network monitoring, router/access point troubleshooting, RJ45 repair, computer formatting, file backup, hardware maintenance, RAID configuration, Windows Server installation, and Active Directory setup.

PROJECTS

TalkReady: Interactive English Proficiency Platform | Full Stack Developer / Team Lead | 2025

- Technologies: React.js, Node.js, Tailwind CSS, OpenAI API, Azure AI Services, Firebase, Render
- Led full-stack development of a web platform for aspiring call center professionals, supporting Admin, Student, and Trainer roles.
- Integrated OpenAI API for vocabulary analysis and Azure AI Services for speech fluency assessment; managed authentication and data using Firebase.
