PROFESSIONAL SUMMARY

Graduating BS Information Technology student specializing in Mobile and Web Applications, with hands-on experience in full-stack system development, IT support, and infrastructure troubleshooting. Built internal systems for inventory tracking, ticketing support, virtual office management, and CRM workflows using React.js, Node.js, Firebase, MySQL, and REST API integration. Experienced in network troubleshooting, RAID configuration, Windows Server installation, and Active Directory setup.

TECHNICAL SKILLS

Web & Programming:	React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Node.js, Flutter, Dart
Databases & Tools:	MySQL, XAMPP, Firebase, Supabase, Git, GitHub, VS Code, npm, Render
AI & APIs:	OpenAI API, Azure AI Services, REST API integration
IT Support	Network monitoring, IP addressing, router/switch/access point basics, RJ45 cabling, hardware
& Infrastructure:	troubleshooting, operating system configuration, RAID configuration, Windows Server installation, Active Directory setup

PROFESSIONAL EXPERIENCE

IT Support / System Developer | 520 IT Services / Launchpad Coworking | Alabang Muntinlupa, City Philippines | 2025 - 2026

- Developed and improved four internal web systems supporting inventory tracking, ticketing support, virtual office client management, and CRM inquiry pipeline workflows.
- Served as lead developer for an Online Ticketing Support System that centralized client technical support requests through company-specific submission links, ticket tracking, status monitoring, and image upload support.
- Built CRM workflow features for lead assignment, inquiry status tracking, proposal draft preparation, dashboard analytics, notifications, and calendar/booking planning.
- Supported virtual office operations by implementing client record management, contract and renewal monitoring, receipt generation, PDF/image outputs, and verification fields.
- Performed IT support tasks including network monitoring, router/access point troubleshooting, RJ45 repair, computer formatting, file backup, hardware maintenance, RAID configuration, Windows Server installation, and Active Directory setup.

PROJECTS

TalkReady: Interactive English Proficiency Platform | Full Stack Developer / Team Lead | 2025

Technologies: React.js, Node.js, Tailwind CSS, OpenAI API, Azure AI Services, Firebase, Render

- Led full-stack development of an AI-powered English proficiency platform for aspiring call center professionals, supporting Admin, Student, and Trainer user roles.
- Integrated OpenAI API for vocabulary analysis and Azure AI Services for speech fluency assessment; managed authentication and user data using Firebase.
- Co-authored the related research paper accepted for IEEE APWiMob 2025.

EDUCATION

National University Dasmariñas - BS in Information Technology, specialization in Mobile and Web Applications | 2022 - 2026

University of Perpetual Help Molino Campus - Information and Communication Technology Strand, With High Honors | 2020 - 2022

CERTIFICATIONS & ACHIEVEMENTS

- TESDA Online Program Certificates:** Computer Servers, Computer Networks, Computer Systems Configuration, Systems & Networks Maintenance, Android Mobile App Development, CSS, Technopreneurship.
- APWiMob 2025 Conference Paper Acceptance:** Co-authored "TalkReady: Interactive English Proficiency Platform for Aspiring Call Centre Professionals," accepted by the Technical Program Committee.
- Academic Recognition:** Achieved 2nd Honors, 2nd Year - 3rd Semester, GWA 3.40.
- Video Editor, NU-Dasma Vibin' (June 2023 - October 2023):** Edited promotional and event videos for university-wide activities.
