PROFESSIONAL SUMMARY

Graduating BS Information Technology student specializing in Mobile and Web Applications with hands-on experience in full-stack system development, IT support, and infrastructure troubleshooting through an 800-hour company-supervised internship/OJT recognized as professional work experience. Built internal systems for inventory tracking, ticketing support, virtual office management, and CRM workflows using React.js, Node.js, Firebase, MySQL, and REST API integration. Experienced in network monitoring, Windows Server installation, Active Directory setup, RAID configuration, and hardware/network troubleshooting.

WORK EXPERIENCE

IT Support Specialist & System Developer

2025 - 2026

520 IT Services / Launchpad Coworking - Alabang, Muntinlupa City, Philippines
800-hour company-supervised internship/OJT recognized as professional work experience

- Developed and improved four production internal web systems supporting inventory tracking, ticketing support, virtual office client management, and CRM inquiry pipelines.
- Architected an Online Ticketing Support System that centralized client technical support requests through company-specific submission links, real-time ticket tracking, status updates, and image uploads.
- Built CRM modules for lead assignment, inquiry status tracking, proposal draft preparation, dashboard analytics, automated notifications, and booking/calendar planning.
- Implemented virtual office management features including client records, contract and renewal monitoring, receipt generation, PDF/image outputs, and verification fields.
- Delivered IT support for network monitoring, router/access point troubleshooting, RJ45 cabling and repair, computer formatting, file backup, hardware maintenance, RAID configuration, Windows Server installation, and Active Directory setup.

PROJECTS

TalkReady: Interactive English Proficiency Platform | Full Stack Developer / Team Lead

2025

Technologies: React.js, Node.js, Tailwind CSS, OpenAI API, Azure AI Services, Firebase, Render | talkreadyweb.onrender.com

- Led full-stack development of an AI-powered English proficiency platform for aspiring call center professionals with Admin, Student, and Trainer roles.
- Integrated OpenAI API for vocabulary analysis and Azure AI Services for speech fluency assessment; managed Firebase authentication and user data.
- Co-authored the related research paper accepted for IEEE APWiMob 2025.
